Sterling Advocate, one o the oldest and strongest Democratic papers in the Ninth Congressional district, and for twenty-five years leader in its party affairs, comes out last week in a strong editorial sup-porting the candidacy of the Hon. J. C. W. Beckham for the Democratic nomination for United States Senator.

The support of this paper will be of reat benefit to Governor Beckham.
The announcement of the Advocate,
which has always been considered
against Governor Beckham, was a surprise, and a hard blow to the Creary and Stanley interests in that section of the State. The editorial of the Advocate it is as follows:

"For weeks we have made no effort to conceal our preserence in the con-test for the Democratic nomination for United States Senator before the State primary, August I next. Ordina-rily, because of party expediency, we refain from doing this. However, with us, this is not an ordinary party congrounds tast Wednesday was a decided success in every particular. A fifty foot section of the amphitheatre was raised, the stumps and brush from over the entire grounds were hauled off and affectionate friendship we hope will never cease. The law specifies that the books shall be sold in Kentucky as low as in any other specifies that the books shall be sold in Kentucky as low as in any other State. The Lyon and Carnahan arithmetics are adopted in Tennessee at 24 and 35 cents for two books. The same books with six additional pages in the elemental book and about 100, devoted to review and vocational problems, in the advanced book, are adopted in Kentucky at thirty and fifty cents, respectively. The firm in discussing the books before the board said the price could not be cut if the larger text was adopted. Superintendent Hamlett has asked an opinion from Assistant Attorney General Logan on the question. Superintendent Hamlett declares he will not sign the contract.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials
